Tony is the Director of Counselling at Pilgrims Hall Counselling Services in Essex. After becoming involved with clients presenting with pornography issues Tony made a special study of the causes, effects and treatment of sexual addicts. In his own practice he has seen many clients released from addiction to sex, going on to lead a changed lifestyle and have enriching relationships.

He will also be covering addiction to pornography, a subject of increasing concern to Churches and those who provide pastoral care within the Church.

This workshop will explore issues including a biblical perspective, pornography and erotica, types of addictions and feeders, the process of addiction, consequences, treatment and the Church' role'. This promises to be an enlightening day in which we can gain understanding and information in a safe and confidential environment.
